Covert Sentry®

COVERT VIDEO SURVEILLANCE SYSTEM

Highlights

- Covert Camera System
- PTZ and Fixed Camera Options
- Wide Viewing Area
- 4G Cellular Modem Option
- Wi-Fi Modem Option
- Edge Storage Option
- Fast & Easy Deployment
- Stream Video to VMS Systems
- NEMA 4 / All-weather Enclosure

WHAT IS COVERT SENTRY®

The Covert Sentry® is Covert Pole Camera System. Simply strap it to a pole, plug in the power cord and walk away. The megapixel video will then stream to you or your VMS (Video Management System) via an industrial 4G / 3G Cellular modem or Wi-Fi bridge / access point. There is also an option for Edge Storage, which can reduce your cost and eliminate the monthly ISP fees.

Technical Specifications:

Camera Specifications (Refer to camera datasheet for specifications)
- PTZ = Panasonic WV-SC384
- Fixed = Panasonic WV-NP502
- PTZ with Edge Storage = Axis P5522
  ** Contact App-Techs for other Camera options

Cellular Specifications
- High-performance "4G / 3G" cellular modem
  ISPs / Carriers: Verizon, Sprint or AT&T
